# Profile

Punjab is the land of food and is known throughout the world for its warm hospitality and delicious ethnic snacks. We started with this simple thought **three decades** ago. Since then we have unrelentingly discovered the richness of its spices and pulses. We at GLORY FOODS take pride in serving as the branded producers and suppliers of a vast range of Namkeens, Snacks and Roasted products.

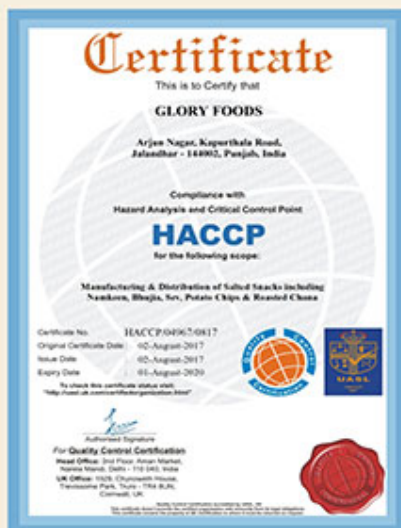

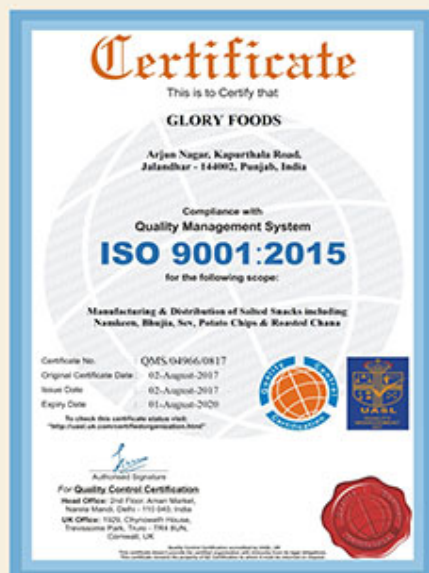

Our promoter, Mr Bharat Bhushan Sidana, having vast experience of **over 30 years** in manufacturing and marketing of food products has brought the company to a very strong footing. With second generation into the business, Mr Pradeep Sidana, having higher management degree and vast experience working with multinationals, has taken the task upon himself to take our company from a state wide known brand to a brand of national importance.

Today the company has one of the most sophisticated and technologically advanced plants to produce products matching international standards. We source premium quality raw materials **direct from the source**. Chana Dal &

Groundnut are procured from Rajasthan, Spices from South India and

Refined Oils from the best millers. Raw materials that pass through our stringent **21-test methodology** make way into the production. Our preparations are 100% pure and never adulterated. Our packaging ensures that the flavor is sealed in and does not weaken over time resulting in full aroma when our snacks reach YOU!

Having identified the needs of our valued customers, we at GLORY FOODS today enjoy the status of the few pioneers who could sense the emerging needs of the market tomorrow. Studying upcoming trends and launching new products is our strong forte. We have established a long term vision to rapidly expand our footprint, touching more human lives than before, bringing smile to far more people and in process bringing huge success to our stakeholders and channel partners.
